Mr M. F. Klaucke-a German gentleman who passed several years in this Colony for the purpose of making himself acquainted with its mineral resources and its capability of supporting a large agricultural populationbecame impressed with the idea that the country offers inducements for settlement' by immigrants from the overcrowded communities of the Old World; and after collecting the fullest data, and putting himself in communication with the Colonial Government to ascertain the terms on which the Crown lands could be secured for the settlement of an industrious class of immigrants, Mr introduction of thrifty settlers to its wild Klaucke proceeded to Ottawa, the lands. The work is entirely one of capital of the Canadas, where he laid love and philantrophy so far as Mr his scheme before the Government and Klaucke is concerned; but he knows that to secured the warm support of the leading journals of those Provinces. In these columns allusion has been made to the scheme which Mr Klaucke proposes to introduce here, and by means of which he philanthropically hopes to place a large number of his fellows beings on the road to prosperity and wealth. A brief outline of the immi. effect the prospectus has exerted; but knowgration scheme, as laid down in a prospectus issued in pamphlet form at | ing the country as well as we do, and being Ottawa, will suffice to inform the reader thoroughly upon the important subject. The title of the Company it is proposed shall be "The British and Northwest American Emigrants' Setnumber to flock to these shores at once; but a tlement Association (limited)," with a capi al of £200,000, divided into 2000 few hundred immigrants might annually shares of £100 each. Land sufficient find homes among us, with profit to themselves and great advantage to the Colony to provide 400 farms of 200 acres each It is a system of this kind that Mr Klaucke (i. e., 100 acres prairie or arable land, has to set on foot, and it has our best wishes and 100 acres forest), will be pur-) for success. chased at the Government rate of \$1 per acre; and to make the Association The Sailors of the "Egmont" in the a paying one, the cost of each farm and all other expenses connected with the transport and establishment of the settler thereon, will be made a first charge upon the property, to be recited was, that the penalty exceeded the offence, and that in no part of the civilized word would such a thing take place—even in Van Dieman's Land, as I once had an oppaid at the convenience of the settler : one-half of the net produce " in kind" to be paid to the Association until the portunity of witnessing the retractory sailor breaking stones in private, and secluded from the public gaze. I ask, why should it be necessary that, in Vancouver Island, a more obligation of the farmer has been liquidated. The whole amount to be charged against each settler is estiworld? Doubtless these men have acted wrongleily, and deserve punishment but why this degradation? mated by Mr Klaucke as follows;

An effort is being made to take away from a Mr Peaty, a clerk in the Bank of England, his wife, on the ground that she was meane when he married her. The lady is 40 years old. She says she loves her husband and wants to remain with him; he says he loves his wife, and insists on retaining her, but her quardian prays that the \$1,300 on payment of which the settler will become the proprietor of his farm in fee simple, and be exenerated from all appear, to certain functional derangements, which not uncommonly have a sudden and further payment. Of the capital fund, it is estimated that £104,000 will be absorbed in establishing the 400 farms and in bringing the actions out, and £96,000 in the purchase of two ships, incidental expenses, and the creation of the family which she markedly shared. Decidedly she did odd things now and then the creation of the Receiver France F of a Reserve Fund. In his calculations on the Financial Results. the projector woman's oddities, but as proofs of madness on the Financial Results, the projector estimates that the annual produce of each farm will be equivalent in value asked her uncle's consent to the marriage.

10 500 bushels of wheat at 80 cents There was some objection raised, but Mr to 500 bushels of wheat at 80 cents per bushel—half of which value (\$200) did that of the lady: and thirteen years would be payable to the Association, married. The case is still on in the Divorce married. The case is still on in the Divorce making, for the 400 farms, an aggregate of \$80,000, bearing interest at the rate of 8 per cent, on the nominal capital of the Company. The two ships Mr Klaucke proposes to employ in bringing emigrants from the old country, and sending the vessels back again with return cargoes. In his remarks upon the foregoing, Mr Klaucke quotes from Rev Mr Macfie's book, who says that "it is no libel on the farming intoxication. Possession was obtained of a book showing that she was a depositor in the Savings Bank for £100. The deceased had gained the name of "Jenny, the Catcapabilities of the country to say that its metaliferous capabilities are greater. I do not hesitate to assert that British Columbia contains sufficient arable soil to sustain a population of many millions; parts of England—Tintagel, a w. tering place on the north coast of Cornwall. A besides, the large and profitable markets furnished to agricultural producers by mining and trading settlements, are unequalled in any part of the world." Mr Klaucko announces himself in favor of Confederantion, an overland railway, the maintenance of Victoria as a Free Port, lie water, was but an idan in large and the ready of madness are tenance of victoria as a Free Port, lie water, was but an idan in his grass. and the adoption of a system of free immigration under liberal enactments. NEW YORK, April 8-By the arrival of the steamer Hansa we have dates to the 27th ult. In the House of Commons, on the 25th, various notices were given relative to the Reform bill. The most important was given by Lord Elcho in behalf of the Grosvenor amendment, fixing the borough suffrage at five pounds rating. Mr Deving gave notice of an intention to move for the reduction of the county franchise to five pounds rating. Mr Roebuck promised to move a reduction of the town rating to six months, and introduce a larger franchise on the second reading. Mr Gladstone explained the position of the opposition. He said that parties might hope to go into committee on the bill with the idea of coming to a settlement.

The London Standard says it is currently reported at St. Petersburg that an alliance offensive and defensive has been concluded between Prussia and Russia. Romania is a party to the arrangement.

LONDON, April 7-A recent meeting of the Liberal members of Parliament resolved to offer opposition to the Reform bill introduced by the Government. They propose to bring the subject to a vote as soon as possible, and confidently expect to carry the majority of Parliament against the bill, in which event the members of the Derby Cabinet will resign LONDON, April 8-Mr Lowe stated in the House of Commons to-night that alarming

HORSE NAILS

Fellows, Roscoe & Co., HAVING BEEN APPOINTED AGENTS to the Manufacturers of GRIFFIN'S HORSE RAILS, have received a large Assortment per "Gleramara." San Francisco Assaying REFINING WORKS No. 416 Montgomery Street,

(Successors to Kellogg, Hewston & Co.,)

CAPITAL STOCK, - - - \$1,000,000. JOHN PARROTT, CHAS. E. MCLANE, WM. C. RALSTON, A. HAYWARD, LOUIS A. GARNEIT,

THIS COMPANY HAVING GREATLY EN-

A larged their kenning works, and introduced many other important improvements, are pleased to announce that they feel warranted in again reducing materially their terms of doing business. The Tariff of Charges Which they now submit to the public—considered with reference to the cost of material and labor—is lower than in any other part of the world, and secure to the mining interest of this coast an important increase in both the mining and commercial value of builton. Their charges hereafter will be as follows:

For Assaying Deposits for Unparted Gold One-eighth of one per cent (heretofore a quarter) for all amounts over \$1.600, and two dollars for any smaller sum. Returns made in twenty-four hours.

For Assaying Deposits for Unparted Sliver Bars. Two dollars for the gold contained, up to \$1,600, and one-eighth of one per cent for all amounts over that sum, and one per cent on the silver contained. Returns made in twenty-four hours.

For Regning Deposits made for Cola or Fine Bars. On bullion under 300 parts gold. 2 cents per ounce. On bullion from 300 4000 parts gold, 4 cents pe On bullion from 600%@750 parts gold, 6 cents per

ounce.
On bullion from 7501/2@9491/2 parts gold, 8 cents per ounce.

Above 950 the only charge will be for coinage. But there will be no charge for refining less than two dollars. For Coining Gold.

This charge will be the same as at the mint—a half of one per cent—and which is pad by us to that institution But there will be no charge in future for making fine gold or silver bars from buillion refined by us. Returns in Coln made in Forty-eight Hours. Silver cortained in deposits for coin will be accounted for at the same race customary at the bill. Gold bars of other asseyers in good standing, will be cashed by us at the highest ma ket rates.

Dust and builtion can be forwarded to us from any part of the country, and returns made through Wells, Fargo & Co.'s Express.

For the convenience of those not familiar with the terms of the Mint, we subjoin the tariff of charges now in free at that Institution: For refining bullion under 300 parts gold, 3 cents per ounce.
For refining bullion from 300% @600 parts gold, 5 cents

The course of course of the charge of the charge for coinage is one-half of one per cent, and the charge for making fine silver bars, the same.

Comparing the net value of deposits for coinage, with the proceeds of unparted gold bars sold in the market—assuming that the bars have cost 1/2 of one per cent—they must be sold at the following par intes to equal the return which would have been made had they been deposited for coinage: socited for coinage:
830 par to equal Mint return, at refining charge of 14

865 par to equal San Francisco A. & R. Works return, at relining charge of 8 cents. m18 2p3m

Messrs. Laumeister & Co's Distillery AND GRIST MILL .- We were politely shown over this extensive establishment yesterday by the employes on the premises, and have rarely seen a more ingenicus arrangement for turning everything to account in the most compact form. The building (or rather the site of the building as by the time each article is in its place , the former tenement will have given place to a number of new ones,) was formerly used by Messra Dougal & Son as a boiler and machine shop; but the new order of things causes juttings, wings and branches to spring from the main building in a manner most bewildering to a stranger. The entire structure may be said to be in two unequal divisions; the larger being occupied as a distillery, the smaller as a grist mill. The distillery is fitted up with a mutiplicity of vats that are acted upon by steam conveyed through a series of tubes that perform the complicated process of distilation in all its various ramifications. To the unitiated the numerous valves and means of conducting the liquor in the different stages of manufacture seems to be endless, and any attempt at a more particular description is to use a matter of impossibility. 200 gallons of spirits can be produced in ten hours. The grist mill will run two pairs of stones, capable of turning out one hundred barrels of flour every 24 hours. The enterprising proprietors have the intention of adding a circular saw to the other branches of manufacture. as the engine has sufficient power to drive the whole. The engine was manufactured in London, England, and is the most perfect thing of the kind that we have seen in this country, for solidity and compact strength. The boiler was brought from Scotland, and is on an improved principle for economising fuel and heat. Every adjunct has been created to render the action of each part complete, displaying an accurate knowledge of the principles involved in the undertaking most creditable to the proprietors. It is supposed that in ten days the whole establishment will be in full operation; A staging and tramway on which runs a car, acted upon by the machinery in the main building, is at present existing for the purpose of discharging and loading the vessels fringing grain, fuel, &c., to the establishment

but we believe the proprietors intend

forming a new structure of stone, extending

further into the Bay. The enterprise will

be a credit to the city, a real advantage to

the Colony, and, we trust, a source of profit to the owners. A TERRIBLE ACCIDENT recently occurred on the Colorado Desert. whereby a Government train was lost. The train consisted of eleven wagons, was known as Chandler's train, and was accompanied by one company and a detachment from another company, of the 14th U. S. Infantry, under the command of a Lieutenant. They had encamped in the bed of, and just below the forks of a deep and broad wash. While thus encamped a small black cloud suddenly appeared above the horizon, from which lightning and thunder proceeded. A sufficient time hardly elapsed to observe this cloud, when it, or another one teeming with electricity, made its appearance in almost the opposite direction. The whole heavens were overcast, and am d the vivid flashes of lightning and deafening peals of thunder, a shower of hail commenced falling, which soon became a shower of flat pieces of ice, from two inches to four inches square. The mules instantly hence on or about Saturday next. fled before the pelting storm to some neighboring hills, while the men sought shelter under wagons and the high banks of the A huge volume of water, the face of which was nearly or quite three feet high came rushing down the wash. This was soon followed by an additional one which came pouring on vard, and which presented a front still higher above the waters of the first. Two men of the fourteen h were drowned and the commanding officer was carried down the wash in the angry and boiling flood, and was only rescued from drowning by an Indian vaquero who, standing on the bank, saw the Lieutenant com-pletely exhausted from battling with the wild waters, amid the wreck of the trees, and threw his riata over his head and drew him to the shore. Six wagons were irretrievably lost, together with nearly all of the harness of the whole train, and the rest of the wagons were washed down by the torrent, overturned, broken, bruised and scattered for miles. Commissary stores with which the train had been laden, were carried into the Salt Lake (the great basin of the Colorado desert) a distance of eighteen miles from the scene of

the disaster. THE GOOD FRIDAY EXCURSION TO OLYM-PIA.—The excursionists to Olympia and way ports, on Good Friday, have au unexpected treat in store for them. The inimitable Tom Lafont, the " Star of Victoria," the charming Pixley Family, Mr E. Lamb and several other artistes have arranged to proceed in the New World to the Sound upon that day. On the trip up they will improvise a concert room, in the spacious saloon of the steamer, and will give one of their interesting performances. At Olympia, a hall has been engaged, and the troupe will perform there during the stay of the excursionists. After making the tour of the Sound, the party will return to Victoria and proceed to Cariboo. To Victorians, we need not say one word in commendation of this excellent company; and the people of the Sound have only to attend one performance to insure in Victoria, make an appeal to liberal minded their presence at the entire series. " Tom " is an old favorite on the Sound, and will meet with a cordial reception.

WOLVES ON A RAILWAY .- " A cattle-train on the Luxembou g railway was stopped," says the Nord, a few nights back, between reaksman was sent forward for aid to clear the line, and while the guard, fireman, engine driver and a customs-officer were engaged in getting the snow from under the engines they were alarmed by wolves, of which there were five, and which were attracted, no doubt, by the scent of the oxen and sheep cooped up in the railed in carriages. The men had no weapons save the fire utensils belonging to the engine. The wolves remained in a semi-circle a few yards distant, looking keenly on. The engine-driver left off the steam and blew the whistle, and lanterns were waved to and fro, but the savage brutes did not move. The men then made their way, followed by the wolves, to the guard's carriage. Three got in safe; while the fourth was on the step one of the animals sprang on him, but succeeded only in tearing his coat, They all then made an attack, but were beaten off, one being killed by a blow on the head. Two hours elapsed before assistance arrived, and during that time the wolves made several attempts upon the sheep trucks, but failed to get in. None of the

cattle were injured." THE ASSAULT ON THE HIGH SEAS .- The examination into the charge against Capt-Inglis, of the British ship Egmont, of assaulting his carpenter on the high seas, was concluded yesterday. The magistrate, in delivering his opinion, reviewed the evidence and said that the carpenter had given the captain great provocation by repeating an order so as to give it an entirely different effect to that intended by the captain. Unnecessary violence, however, appeared to have been used; but taking all the circumstances of the case into consideration, and the fact of the crew having been tampered with, the Court did not feel justified in inflicting a heavy fine; in fact, the Magistrate said he thought the crew had been illadvised in refusing to work. Mr Bishop (who appeared for the carpenter) disclaimed having advised the crew to knock off duty, and said that, on the contrary, he had advised them to continue. Capt. Inglis was then fined \$10, which he paid, and was discharged.

WHISKY SELLING TO INDIANS. -Thomas Tugwell, a respectable looking man, was charged by officers McMillan and Taylor, before the Police Magistrate, yesterday, with having sold a can of alcohol to some Indians, on Esquimalt road. Mr Bishop defended. The officers swore that they saw the can delivered to an Indian by Tugwell. The Indian was produced and corroborated the testimony of the officers. Mrs Tugwell and a bar-keeper swore that Tugwell was working in his garden at the time the officers alleged the can of liquor was sold by him to the Indian. The Magistrate considered that a clear case had been made out, and sentenced the accused to pay a fine of \$200, which was forthcoming. One-half of the fine will go to the officers.

FRASER RIVER ITEMS .- We condense the following from the Examiner and Columbian: A new theatre will shortly be erected at the Capital. The last benefit netted \$52 80 for the Hospital ..... The Reliance started up river on Tuesday with a full load..., The Volunteer ten against the Shearwater ten, won the return rifle match ..... The Lillocet is beached at Westminster for repairs .... Codville Landing Saloon, on Fraser River was on fire when the Onward passed that place ..... On Monday night some thief or thieves entered the Lands and Works office and took away three chronometers and one theodolite. They are worth about \$800.

FOR THE SANDWICH ISLANDS .- The bark Lono, Capt. Howard, arrived in Esquimalt harbor yesterday, from Burrard's Inlet Mills, on her way to the Sandwich Islands, with 125 M. feet lumber, 200 M. shingles, 35 bar rels salmon and a small quantity of merchandire. The vessel was detained over five weeks by flost and snow; the lumber could not be removed, and the severe weather interfered somewhat with the working of the mill. Mrs Howard and family leave the Colony on this voyage of the vessel, which will sail

JUST So !- Says the British Columbian : 'On dit, that the Hon. A. N. Birch willshor ly proceed to England on a six months' leave, and that the Hon. H. M. Ball will discharge the duties of Colonial Secretary during his absence. While the Colonists will regret even the temporary absence of our popular and talented Colonial Secretary it is no small consolation to know that his place will be so well filled." Just so!

BOARD OF FIRE DELEGATES .- At a meeting of this Board, on Tuesday evening, the Treasurer was directed to pay the steward of the Companies the arrears of salary, and to liquidate a number of small debts amounting in the aggregate, to \$100. The question of a May day parade was left with the Board of Foremen, and \$250 was ordered to be divided between the three Fire Companies to defray current expenses.

Poisoned.—The Boise Statesman of the 7th inst., states that Sergeants Shoalderdice and Maguire, and a private named Lee, all of Co F., U.S. cavalry of Capt. Perry's command, were poisoned about ten days before that date, by eating a sort of wild turnip or parsnip indigenous in the Malheur country. All of them died and were buried there. Shoalderdice was orderly sergeant of his company, and leaves a wife and five children at Fort Boise.

WEIGHTS AND MEASURES-The Ordinance to establish a standard of weights and measures empowers the Governor to appoint Inspectors in the different districts, whose duty it shall be to stamp all weights and measures brought to him for the purpose, and for each weights or measures so stamped the Inspector shall be entitled to receive the sum of ten cents. Mr Sparrow, it is said, has been appointed Inspector.

A SUBSCRIPTION, which in no instance must exceed twelve and a-half cents, has been opened in Europe for the erection of a statue to Voltaire. The Society of Rafales, citizens and to the admirers of the great author. Subscriptions will be raised at the any time. Title unexceptionable. Terms Occidental Saloon.

REMEDY FOR BURNS .- Preserve the following infallible recipe : Mix common whitening with sweet oil, or water. Lay on and Libramont and Poil, by the snow. The around the brrned surface a thich coat of the mixture. Keep it moist, and at night cover it with flannel, or something which will prevent rapid evaporation. This acts like a charm, and the most agonizing pain is

eased. THE INTERIOR MAIL SERVICE .- We understand the contract for the interior Mail service has been awarded to the well known firm of Dietz, Nelson & Ce., which of course ncludes the Hon. F. J. Barnard. This will be gratifying intelligence to the people of the interior inasmuch as it is a sure guarantee that the work will be done faithfully and well. - Columbian.

APRIL SHOWERS-We had a first instalnent yesterday of April showers-something on account of what is to follow. The counappearance, and if "wearin' o' the green were a treasonable offence in this part of Her Majesty's dominions, one half of the suburban real estate would be confiscated to the Crown.

NEW SPRING GOODS .- AT VICTORIA HOUSE (corner of Fort and Douglas streets,) are now eing unpacked the first instalment of their spring goods received by last steamer, com prising novelties in dress materials for spring and summer wear, Ladies' and Children's Mantles and Jackets, Hats, Bonnets, &c., &c.

It is proposed to publish a morning paper on board the steamship Great Eastern, on her voyage to and from America, across the The paper will be called the Great Eastern Gazette.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul cruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, cruptions, or sores; cleanse it when you find it is obstructed and sluggish in the voins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or averthory. namina.

cause many preparations, pretending to be concentrated extracts of it, contain but little of the
virtue of Sarsaparilla, or any thing else.

During late years the public have been misled
by large bottles, pretending to give a quart of
Extract of Sarsaparilla for one dollar. Most of
these have been frauds upon the sick, for they
not only contain little, if any, Sarsaparilla, but
often no curative properties whatever. Hence,
bitter and painful disappointment has followed
the use of the various extracts of Sarsaparilla
which flood the market, until the name itself is
justly despised, and has become synonymous
with imposition and cheat. Still we call this
compound Sarsaparilla, and intend to supply
such a remedy as shall rescue the name from the
load of obloquy which rests upon it. And we
think we have ground for believing it has virtues which are irresistible by the ordinary run of
the diseases it is intended to cure. In order to
secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle. Where all other preparations have failed, these pre-parations will always effects cure. These insure rapid and extraordinary core of severe recent and chronic cases of prive to diseases. They are used in the hospi-als of Paris, by the celebrated or Rio-rd, and are found greatly superior to all hitherte known mineral remedies and copaiba and cubebs. LIFE DEPARTMENT.

This Institution accepts proposals at the rates of premium applicable to Europe, which on examination will be found more advantageous than those charged by other Offices having Agencies here. It unites all the advantages of a Mutual Association with the security of a Proprietary Company. The Participation Branch is conducted by the Proprietors of the Company for a charge of 10 per cent. on the premiums, witnout any other deduction whatever. Thus the assured enjoy the profit witnout nite labour of the Mutual System.

The participation in profits has been most liberal Should claims arise before the next investigation, a prospective bonus of nearly 1½ per cent. is allotted.
